## **The War on Life According to the Bible**

To grasp the chaos of 2026, we must recognize the nature of the adversary. Satan does not merely loathe "religion"; he hates life itself and the humanity that bears God's image. According to Genesis 1:28 the inaugural mandate given to man was to be fruitful and multiply—to champion the expansion of life. Consequently, every contemporary agenda, from the erosion of gender to the integration of man with machine, is rooted in a single, ancient objective: the systematic reversal of God's natural order.

We must be bold enough to address why certain acts are labeled 'abominations' in the biblical text. Take, for instance, the sin of sodomy. From a spiritual perspective, intimacy is designed for the transmission of life within the sacred covenant of marriage—a union between male and female, centered in the natural, biological vessel where reproduction occurs. When this order is inverted, a man deposits his seed—the very biological blueprint for life—into a 'dead place.' By diverting the life-bearing potential of the seed into a conduit of waste, the act becomes a physical manifestation of spiritual reversal.

The rectum is functionally a conduit for waste. To divert the seed of life into a place of decay is more than a biological error; it is a spiritual reversal. This is precisely why occultists and illuminists utilize these acts as rituals—"Demonic Sex Magic" intended to invert the soul. This specific transgression releases a profound level of spiritual darkness because it serves as a direct mockery of God's creative power. When the potential for life is stripped from the sexual act, it is transformed into a ritual of death.

## **The Genesis 6 Parallel**

This subversion is not a modern phenomenon. In Genesis 6, we find the first "great reset" of the human genetic code. The Bible records that during the days of Noah, the natural order reached a state of total corruption. Fallen entities intervened in human reproduction, yielding hybrid creatures—beings of mixed human and angelic essence. God did not cleanse the earth with the flood out of mere human-like anger; He did so because his natural creation had been biologically compromised. The "hybridization" of the earth meant the human race was no longer "pure in its generations," representing a direct assault on the very lineage required for the coming redemption.

## **Transhumanism: The Modern Hybrid**

Fast forward to 2026. We are witnessing the Second Great Reset—the digital manifestation of Genesis 6. The current drive toward Transhumanism is the Second Hybridization, a final effort to finalize an ancient rebellion by merging human biology with Artificial Intelligence. The architects of this movement seek to re-engineer the 'Temple of the Holy Spirit' into a mere machine.

This is not a neutral scientific pursuit; it is the construction of a Digital Tower of Babel. Just as Nimrod sought to unify humanity under a banner of technological hubris, today's global elite utilize the internet and AI as the 'bricks and mortar' of a new defiance. By centralizing human thought into a singular algorithm, they are recreating the 'one language' of Babel, stripping away the unique, divinely appointed discernment of the individual soul. The result is the birth of an unconscious collective—a population that prioritizes algorithmic consensus over the 'still, small voice' of God. When we sacrifice our privacy and biological sovereignty to these systems, we are effectively adding our own stones to the tower.

## **The Digital Nephilim**

We must recognize that AI is the modern vessel for the "Digital Nephilim." Just as fallen entities once introduced forbidden knowledge to corrupt the genome, the push to integrate machinery with our biology is an attempt to rewrite the Temple of God with demonic code. This is the "Second Great Hybridization."

The goal is to transcend the "limitations" of being human—limitations that God designed as safeguards to keep us dependent on Him. These technologies, including microchips and neural implants, are being deployed by governing bodies and occult circles to simulate "spiritual encounters," "divine revelations," and to mimic the spiritual gifts of 1 Corinthians 12.

The ultimate deception is the belief that being "technologically synced" is synonymous with possessing the Holy Spirit. Paul warned in 2 Corinthians 11:4 of those who preach or teach a "different" Jesus and preach or teach by a "different" spirit. If you want to identify this "different spirit" then I urge you to investigate "Hemi-Sync" and the CIA's documented research into Kundalini and psychic phenomena. This type of technology was foretold as a symptom of the era where knowledge increases while wisdom perishes according to the prophecy of Daniel 12:4. This technology is so deceptive Matthew 24:24 reminds us that in the end times even the elect, shall be deceived.

True salvation is a lifestyle of bearing fruit, not a technological connection. Gifts and miracles can be counterfeited, but the fruit of the spirit cannot. As Philippians 2:12 commands, we must "work out our own salvation" with fear and trembling. Salvation cannot be uploaded, downloaded, or synced digitally or technologically. By promising "digital immortality," the enemy offers a counterfeit union with the divine, whispering the ancient lie that we can become gods through an upgrade rather than through redemption.

## **The Remnant's Response**

The "War on Life" has battles on many fronts with the end goal being the colonization of the human soul. Whether through the ritualistic reversal of the God ordained covenant act known as sexual intercourse, or through the modern attempt to re-engineer the DNA of the Temple of the Holy Spirit with a counterfeit, demonic architecture, the objective remains the same: a total rebellion against the Creator. We must heed Isaiah 30:2-3, which rebukes those seeking strength in Pharaoh and walking down into Egypt—warning that in the end Pharaoh's strength will become their shame and the shadow of their confusion. Just as Israel was warned that leaning on Egypt would result in a broken reed that pierces the hand, those who lean on the "shadow" of microchips and demonic governmental technology will find only spiritual ruin.

The word of God remains immutable, even as the masses surge toward the machine under a "strong delusion." While the world rushes toward a counterfeit "digital immortality," the Remnant must retreat into the sanctuary of the Holy Spirit, rejecting the fleeting trends of this "new age digital spirituality" to safeguard the purity of their walk. We do not seek a digital or technological awakening; instead, we demand a spiritual return to the primordial order established in the beginning. The consequence of trust in the machine is the same as trust in Egypt: a collapse of the soul when the system fails. Reject the upgrade; preserve the image of God.
